We used HappyHire for our backyard wedding and were very impressed with their service. Especially setting up a marquee at the last minute due to a forecast of rain! Excellent value and efficient set up and take down. Thanks so much.

## PARTY MARQUEES VS FRAMED MARQUEES VS STRETCH TENTS

HappyHires party marquees are the most cost effective hire marquee solution on the market. Suitable for guest numbers up to about 60. These functional marquees can be set up on grass or concrete and provide a full unimpeded space for your guests. Suitable for most locations. We use these regularly for backyard birthdays, corporate events, smaller weddings, sports days and much more.

HappyHires deluxe marquees are some of the best on the market with their elegant design and modern look. These marquees come in 3m, 6m, or 10m width and can be made any length to suit. Perfect for larger events, 60+ weddings, conferences and much more. They are extremely robust and rated higher than party marquees in the event of exposed locations or strong winds + they can be silk lined.

HappyHire went above and beyond for our wedding. When doing things on a budget, it can be hard but HappyHire doesn't hike up the prices just because it was a wedding. Super stress-free and absolutely amazing service! 100% would recommend.
